25X1A

Dear Mr.

The invention you refer to in the above-noted letter is entitled "Optical Target and Method for Using Same," SN 460,490. Inasmuch as this invention was conceived on October 1, 1963 and reduced to practice before March 25, 1964 it is background to this contract dated December 16, 1964 and not a "Subject Invention" hereunder pursuant to the Patent Rights clause. There was a delay in filing the patent application which accounts for the fact that the June 3, 1965 filing date is subsequent to the contract date.

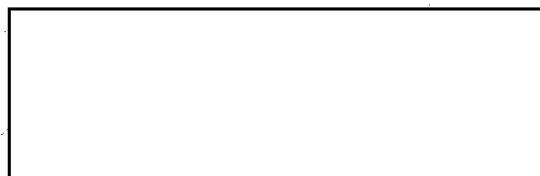

As a discrete matter there is the "Subject Invention" entitled "Additive System for Viewer Test Equipment" described in my letter of November 1, 1966. We have not proceeded any further with the disclosure or patent filing than previously reported.

Very truly yours,

25X1A
